

תורב - ALBT

Pronunciation – ALaBaTaw and the meaning is the language and mark of the house of the Supreme Power YaH.

While understanding the Hebrew (the OBR/Y). Verifying names and clearing confusion. Yes, it takes work to dig down into the cover up, but it is worth digging to find out. However, the word Hebrew is here it is YS'RAL, and we know this as YaSha'RaAL. Typing out the Hebrew words look strange in the English, and it does not follow the English rules to help you avoid trying to make it connect to the English. Instead of making it English we need to remove the English so we can see the Hebrew language in its pure form. A wonderful language from YaH!!

Gen 14:13 And there came^{H935} one that had escaped,^{H6412} and told^{H5046} Abram^{H87} the Hebrew;^{H5680} for he^{H1931} dwelt^{H7931} in the plain^{H436} of Mamre^{H4471} the Amorite,^{H567} brother^{H251} of Eshcol,^{H812} and brother^{H251} of Aner;^{H6063} and these^{H1992} were confederate^{H1167} ^{H1285} with Abram.^{H87}

H5680

עברי

'ibrîy

ib-ree'

Patronymic from [H5677](#); an *Eberite* (that is, Hebrew) or descendant of Eber: - Hebrew (-ess, woman).

H5677

עבר

'êber

ay'-ber

The word here under Hebrew is not Eber. The word here is OBR or OBR/Y as the modern symbol here is the OYN.

The same as [H5676](#); *Eber*, the name of two patriarchs and four Israelites: - Eber, Heber.

I used E-Sword Bible app on my computer, but you can use the same app on your other devices to drill down to the original. Once you get there make sure you are

Crushing Fear

We Only Serve   6:1 KJV  10:28 KJV

familiar with how the names of the Hebrew symbols (letters) are different from the original Hebrew. Watch this video and read the blog to learn more.

The language was concealed until a time such as this for the house of YaH. We are referred to as Kings and Queens but in Hebrew a King or Queen are MaLaKa or messengers of YAH. The translation added their words but the word for us is it is to the benefit of the MaLaKa to examine a matter or seek out a matter. We do not take something at face-value, but we examine it to see if what appeared is true. We must examine our own language now as YaH confused the language of the people because of their self-seeking transgressions. You will find I ask questions and research and so should you.

Why do we have symbols? A healthy view of symbols is a natural example of the unseen. Although we do not worship an ox it has characteristics that we can relate a fraction of YAH's power and view his teachings for life. The name of the ox is PaR and not ALA. PaR means fruitful as the ox had many functions with the production of the field and creating food as well as it is food. The ox was involved in the olive and the wine press and the gathering and crushing of the hard seed like the grain seed. The ox was a valuable addition to the livestock, and it represent great strength, power, and leadership for carrying the burden and training up other oxen for their own plows and yokes one day. The younger ox was nothing to laugh at because normally it was just as if not more powerful than the older ox, but it needed the wisdom of the older ox, so it remained humble. As in power under control is wisdom and the respect of the older ox to lead it forward. The ox symbol reminds us of how YaH works and his relationship with His people and not that it is YaH.

We are linked or yoked together with following Ha'MaShaYaK or need to be and this is how the language is related to the natural world around us, agriculture, business ownership, and running the home stead and home for YAH's house. The language is based on the understanding of how each symbol is abbreviated symbol for a word or message. We get the deeper meanings from seeking the Shama or charter of the

Crushing Fear

We Only Serve   6:1 KJV  10:28 KJV

function. I often ask myself, “what does that represent.” I complete searches based on what are the characteristics. Also note Shama means the character, breath (or wind), RO-WAK (spirit or the wind as in sky or place of winds and smoke, clouds), also a great power and to listen, a great movement and pressing or holding on as well as a great pulling strength, so this word also means name in Hebrew. So, all those songs about what, “is in the name?” is actually what is the in the character or spirit.

What is the spirit of YAH? If you said His teachings, you are correct. Hence the name matters and especially if you can not find the meaning because it explains the character. Do you see why saying a name that you do not understand messes with your heart center? When the name is removed anyone can plug their oppressors, they call god into your heart center.

So, if I say lamb people automatically think of Ha’ MaShaYaK but if I say ram they do not. The ram is also a great strength because the ALA strength is compared to the strength mostly and even an oak tree is the strongest of all trees. So hence you see ram (deer bucks or the male sheep called rams.) YaH told ABRHYM that he had a ram in the bush. Ha’MaShaYaK also says he is the vine as in the root and trunk of the great oak tree or the olive tree. So, one symbol reflects great strength, so we only need one symbol, but the meaning and function help us to connect to the other visuals.

Hopefully this helps you see the symbolism is essential to understand the messages of YaH but also to avoid the snare and traps of the SaThaNu- MaYaMa (you know them as Satans.)

The chart will give you the meanings you have given us and some that we see as we continue to study.
