2023

APRIL

The PASHACHA dinner is eaten standing fully dressed ready to go. The meal is eaten fast. Lamb roasted by fire, bitter herb, unleaven bread (flat bread).

We physically feast on things that do not have leaven (yeast) or another agent used in self-rising or to seed the rising process. However if the agent is used for other things that fine. Such as baking soda is used as rising agent but also used in toothpaste as a cleaning agent.

Most importantly we feast on the word through study, meditations, and discussions. The entire week is to be devoted to study with YHWH of YARAH. The 14th, 20th (weekly SHABATAW), and the 21st days are SHABATAWA's.
