We Only Serve   6:1 KJV  10:28 KJV

CHADASHA 1 1st ABAYAB

Year 2023

The PASHACHA dinner is eaten standing fully dressed ready to go. The meal is eaten fast. Lamb roasted by fire, bitter herb, unleaven bread (flat bread).

We physically feast on things that do not have leaven (yeast) or another agent used in self-rising or to seed the rising process. However if the agent is used for other things that is fine. Such as baking soda is used as a rising agent so do not cook with it but it is also used in tooth paste as a cleaning agent and that is fine.

Most importantly we feast on the word through study, meditations, and discussions. The entire week is to be devoted to study of the YARAH. The 14th, 20th (weekly SHABATAW), and the 21st are SHABATAW.
